K3 FEATURES

Telescoping lateral shift for a wide range of screen compatibility.

Independently height adjustable arms and center head for seamless screen alignment.

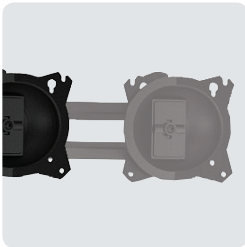

Arms can be adjusted from 0° to 15° for customized viewing angles.

Centris™ fingertip tilt of 10° or 12°, depending on model.

Snap-on cable management for a clean, organized appearance.

Arms are solidly constructed with attractive color accents. Choose from black or silver.

Stand or grommet mount types with available desk clamp accessory.

Telescoping Lateral Shift

Independent Height Adjustment

0-15° Viewing Angle

K4 Models DEPTH-ADJUSTABLE ARRAY MOUNTS

K4 mounts provide an aesthetic and easily adjustable solution for monitor array stations. Focal depth adjustment lets multiple users re-position the bank of screens to their preferred viewing distance, creating an ergonomic, flexible set-up.

Applications

Chief's Kontour array products provide an aesthetic, stable mounting solution for call centers, security desks, IT spaces, health care facilities, control rooms, trading desks and other multiple monitor settings.

Safety

Safety is a huge priority at Chief. Every single product undergoes rigorous safety testing for strength, durability and safety in our lab. So rest assured that our array mounts provide strong, safe support for multiple monitors.
