

# HuddleSHOT

## All-in-One Conferencing Camera with Integrated Audio

### The Big Picture in Small Meeting Spaces

Now more than ever, huddle spaces are a vital part of the workspace. They're fantastic for impromptu meetings, collaboration between locations, and provide a focused area in noisy open-plan offices. It's time to get on board the huddle space movement.

The HuddleSHOT® All-in-One Conferencing Camera with integrated audio is Vaddio's newest solution optimized for huddle spaces. It's the ideal camera solution for video collaboration sessions because its ultra-wide 125° horizontal field of view (FOV) gets everyone in the picture, even in the smallest areas. And its clear audio quality enhances collaboration on both ends of the call.

# Huddle. Connect. Collaborate.

Designed for huddle rooms, HuddleSHOT provides everything you need for productive collaboration sessions. It's easy to deploy, easy to manage and best of all, easy to use.

## Features

- Fixed camera with ultra-wide 125° horizontal FOV and 1080p/60 resolution
- Two integrated speakers with wide dynamic range for robust stereo sound
- Two built-in microphones pick up participant's voices from up to 12 feet (4 m) away
- Easy to use – plug and play simplicity
- Use with your collaboration software of choice – compatible with Zoom, Microsoft Teams, Skype for Business, WebEx, GoToMeeting and others
- Remote management – browser-based user interface makes it easy to configure, manage and control many HuddleSHOT cameras across multiple sites for easy enterprise deployments
- Aesthetically pleasing design – may be placed on a table, mounted on a wall, or under/over a monitor with a tilting Chief mounting accessory
- H.264, RTMP or RTSP Full HD IP streaming, up to 1080p/30
- USB streaming up to 1080p/60 USB 3.1 Gen 1 uncompressed
- PoE+ powered for flexible installation anywhere
- Offers 1.5x and 2x zoom settings if ultra-wide angle is not needed
- Designed and assembled in USA, 2-year warranty
- For slightly larger huddle spaces, add Vaddio's TableMIC microphone to extend voice pick-up and bring common video conferencing control features to the table (speaker volume, microphone mute, camera home, and integrated Skype hangup)
